

## Self Cleaning Filter Kit

Keeps dirt and un-dissolved particles out of nozzles!

- Fine 50m filter protects flow meters, valves and nozzles
- Never plugs up as it flushes constantly back to tank
- Simply tee into the main line before the flow meter and plumb a 3/4" return line back to the top of the tank
- c/w 1" hose barbs, 3/4" tank fitting and 6' of EPDM hose
- (other fittings available if needed)

**Part No.    SELFCLEANKIT11/4**

**Only \$125**

(All prices are tax extra, FOB Oakville, ON)
